Allowable Subject Matter

1. Claims 1-4,7-10,13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the cited references in combination with other limitations of claim teaches or suggests a data driver that has a DAC digital-to-analog converter for sequentially converting the channels of the pixel data output from the digital buffer into a plurality of channels of analog pixel data and outputting a channel of the analog pixel data per time; a plurality of analog buffer units, each analog buffer unit sequentially receiving and storing a channel of the analog pixel data output from the DAC, the analog buffer units outputting the channels of analog pixel data stored therein simultaneously, as disclosed in claims 1 and 7.

The closest art (APA, Make and Ahn) disclose related apparatus, either singularly or in combination fail to anticipate or suggest these limitations obvious.

None of the cited references in combination with other limitations of claim teaches or suggests a data driver that successively outputting the converted pixel data from the DAC to individual ones of a plurality of analog buffer units; and outputting, to drive the multiple data lines, the converted data from the plurality of analog buffer units, in a parallel fashion, after each channel of the pixel data has been converted and received by the plurality of analog buffer units, as disclosed in claim 13. The closest art (APA, Make and Ahn) disclose related apparatus, either singularly or in combination fail to anticipate or suggest these limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
